

Match Play Tournament

The Match Play tournament was established in 1977. It is contested over five or six rounds, depending on the number of entrants. Match play competition allows our members to compete in a format different from the usual stroke play. A round in match play will see two golfers competing head-to-head against each other and not against the rest of the field. Rather than trying to post the lowest score for the round, golfers are trying to win more holes than their opponent. Winners of a match will advance in a bracket-style format until there is one winner left standing.

Here are the past champions.
